PHI European User Meeting - Updated Announcement

Date: June 22 - 23, 2010

Location: Waldhotel Polisina, in Ochsenfurt (Würzburg)

Dear valued PHI customer,

It is my great pleasure to announce our next PHI European User Meeting scheduled for June 22nd – 23rd, 2010 in Ochsenfurt, Germany. To continue the long tradition of PHI User Meetings, in particular the most recent meeting held in Ismaning, Germany, in April of 2008, the meeting will provide a mix of customer contributions, news from PHI, and a forum to exchange our experiences with the instrumentation from Physical Electronics. The meeting will cover all techniques from PHI, including XPS, Auger, Quad-SIMS, and Time-of-Flight SIMS. PHI management, scientists, application engineers, and technical support personnel will be available for discussions. Visit the PHI website for the most current information regarding the User Meeting. Online registration for the meeting is available at www.phi.com.

On June 21, 2010, the day before the User Meeting, PHI will conduct training classes for *MultiPak*, PHI's data reduction software for XPS and Auger. The training will consist of two classes running simultaneously: one class for XPS users and another for Auger users. To make the training most effective, each class will be limited to 15 people. Registrations for the classes will be taken on a first come – first serve basis. Use the on-line form available at www.phi.com to register. We are looking forward to welcome you at the PHI User Meeting, which will take place in the center of the Wineregion "Franken", well known for excellent dry white wines.

Sincerely Yours,

A handwritten signature in red ink that reads "W. Betz".

Wolfgang Betz
Director of Sales
